

14-Feb-2019 FlexPS Product Retirement Bulletin

**14-Mar-2024
Update**

Senstar herein announces the immediate complete end-of-life of the FlexPS fence-mounted perimeter intrusion detection system.

FlexPS Product Retirement

Senstar’s FlexPS fence sensor has a long history of providing reliable protection to critical infrastructure sites all over the world. However given the availability of newer and better performing alternatives, Senstar has established the following product retirement timeline for the FlexPS product line:

Date	Milestone
14-Feb-2019	Product Retirement Bulletin issued (this document), affected products are still available for new sales.
30-June-2019	Product no longer available for new sales. Product available only for the purpose of replacing an existing unit that is beyond economic repair.
31-Dec-2022	Repair services transition to a Reasonable Effort basis. Repair will be performed when it is technically and financially practical.
14-Mar-2024	Complete end of life – all repair services discontinued

Affected part numbers

The affected part numbers are given in Table 1 below.

Product Migration

For customers wishing to upgrade to a new fence sensor Senstar recommends either the FlexZone ranging fence intrusion detection system, the FiberPatrol FP1150 ranging fiber-optic fence detection system, FP400 zone-based fiber-optic fence detection system, or the Senstar LM100 combination fence sensor and intelligent lighting system.
