SENSTAR®

30-Jun-2015	MX Transponders Product Retirement

26-Mar-2024 **Update**	Senstar herein announces the planned retirement of the MX series of input/output transponders.

MX Transponders Product Retirement

Given the availability of newer and better performing alternatives and increasing component obsolescence affecting the products, Senstar is announcing the immediate and complete end-of-life of the MX series of transponders:

Date	Milestone
30-June-2015	Initial Product Retirement Notice issued, affected products are still available for new sales
31-Dec-2016	Product no longer available for new sales, repair services remain available
31-Dec-2018	Repair services transition to a Best Effort basis
26-Mar-2024	Complete end of life – all repair and technical support services discontinued

Affected part numbers

The affected part numbers are given in Table 1 below.

Product Migration

Customers requiring to accept auxiliary input points and/or provide relay outputs for system interfacing are directed to Senstar's UltraLink Input/Output (I/O) modules. UltraLink I/O modules attach to Senstar's Silver Network™ and provide a range of I/O types including outputs (relay, open-collector), and supervised dry-contact inputs.

For further information

Please direct inquiries or requests for quotation to your local Senstar representative – see www.senstar.com for contact information.
